## Announcement by SAAF Holdings Group regarding participation in Eikei University Practical Education Platform Council

---

We are pleased to announce that our group company, Mirai Co., Ltd. (Headquarters: Hiroshima City, Hiroshima Prefecture; CEO: Akira Seno; hereinafter “Mirai”), has joined the Eikei University Practical Education Platform Council (hereinafter “the Council”), which is organized by Eikei University, Hiroshima Prefectural Public University Corporation (Location: Hiroshima City, Hiroshima Prefecture; President: Mutsuhiro Arinobu; hereinafter “Eikei University”).

Hiroshima Prefectural Public University Corporation

**Eikei University**

EIKEI UNIVERSITY OF HIROSHIMA

Mirai

Eikei University was established in April 2021 as a “22nd century university” that nurtures change-makers who will bring about positive change in society. The emphasis is not on “what you know,” but on “can you use your knowledge to create new value in collaboration with others?”, and the school places emphasis on practical education. The Council, whose members include companies, government agencies, local governments, and international organizations from within and outside the prefecture, was established in November of the same year to help students learn independently and contribute to the development of society through this.

Mirai’s mission is to “co-create new value and continuity in local communities, and create a more enjoyable and prosperous future for Japan,” and we support the solution of regional issues throughout the country through collaboration between health, education, and the economy. Through our participation in this Council, we will cooperate in nurturing the next generation of talent, including through practical solutions to social issues through collaboration between industry, government and academia, and accepting internships.
