“GLOBAL WiFi®” expands coverage area of “Unlimited Plan” to 94 countries and regions, allowing use without worrying about data capacity

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereinafter Vision), which provides “GLOBAL WiFi®” (<https://townwifi.com/>), an overseas-use Wi-Fi router rental service, has expanded coverage area of its “Unlimited Plan” to 94 countries and regions, with no limit on daily data allowance.

“GLOBAL WiFi®” offers data communication plans tailored to customers’ needs. However, with the recent acceleration of data communications and changes in the Internet usage environment, data communication capacity tends to be consumed heavily, such as video viewing, Web meeting, and SNS posting. There are also opportunities to share with multiple people, such as friends and family. The “Unlimited Plan,” which does not have to worry about data capacity (remaining amount) even when traveling overseas, is used with peace of mind in a variety of usage situations.

With this expansion, the “Unlimited Plan” now covers 94 countries and regions.

Uzbekistan has not been eligible for the service until now, but we are now able to provide it for the first time. Samoa (Independent State) and New Caledonia have added the “Unlimited Plan” to their existing plans.

“GLOBAL WiFi®” will continue to improve its services to provide a comfortable Internet environment around the world.
