**Vision Inc. has doubled its sales floor space at Kansai International Airport, which boasts the largest number of visitors to Japan in western Japan and the second largest in Japan, for “GLOBAL WiFi®” and a Wi-Fi rental service for visitors to Japan “NINJA WiFi®.”**

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereinafter Vision), a provider of “GLOBAL WiFi®” (<https://townwifi.com/>), which is a reasonable and high quality overseas Wi-Fi router rental service, has expanded and reopened its existing store on the arrival floor (1st floor) of Kansai International Airport Terminal 1 on October 12 in order to meet the strong inbound demand in recent years.

With this renovation, the sales floor space has doubled in size, making it the largest telecommunication service store on the arrival floor of the airport. Accordingly, we have set up four new dedicated counters to customers visiting Japan, for whom demand is growing. These dedicated counters are staffed with multi-lingual staffs to provide a flexible response to customers from a variety of countries.

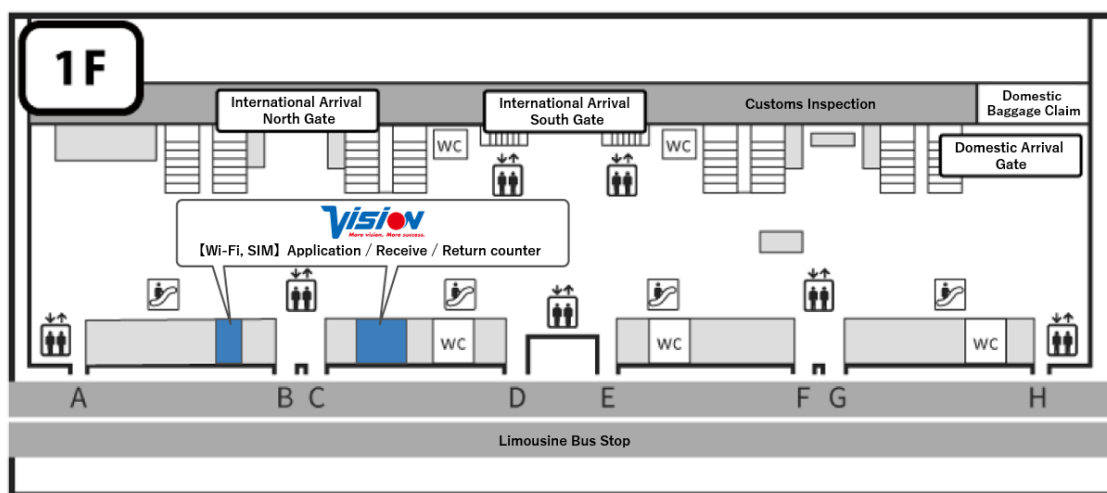

In addition, by separating the lanes for each service, we have made the application and return procedures smoother and more comfortable for our customers. We will provide more efficient and convenient service than ever before.

The services we provide include not only “GLOBAL WiFi®” but also “NINJA WiFi®,” a Wi-Fi router rental service for foreign visitors to Japan, “WiFi-rental.com®,” a mobile Wi-Fi router rental service for use in Japan, and we also sell SIM cards. This enables us to meet the diverse needs of our customers.

We will continue to expand our touchpoints, including airports and other locations throughout Japan, and improve our service, as well as strive to expand our network quality and connectivity areas to provide a comfortable mobile Internet access environment around the world, in order to assist tourism and business.
