**“GLOBAL WiFi®” has expanded the coverage area of “Unlimited Plan” to 128 countries and regions, which can be used without worrying about data capacity.**

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereinafter Vision), which operates GLOBAL WiFi Business, Information and Communications Service Business, and Glamping and Tourism Business under the themes of “Connecting People, Connecting the World,” has expanded its coverage area of “Unlimited Plan” to 128 countries and regions, with no limit on daily data allowance for “GLOBAL WiFi®,” an overseas-use Wi-Fi router rental service.

The graphic features the GLOBAL WiFi logo at the top, followed by the text "4G Unlimited Plan" and "Expand Service Area" in large orange letters. Below this, a blue banner states "128 countries are now supported by the Unlimited Plan!". The graphic is divided into two sections: "New!" and "Power up from 3G to 4G!". The "New!" section lists 12 countries with their respective flags: Brunei, Jamaica, Paraguay, Tonga, Laos, Dominican Republic, Martinique, Republic of Nauru, Curacao, Bahamas, Tahiti, and Papua New Guinea. The "Power up from 3G to 4G!" section lists three countries: El Salvador, Nicaragua, and Panama. The background is a network of blue and pink lines connecting various points, with a small illustration of a person using a laptop and a plane in the bottom right corner.

“GLOBAL WiFi®” offers data communication plans tailored to customers’ needs. However, with the recent increase in data transmission speeds and changes in the Internet usage environment, plans with faster transmission speeds and no capacity limits tend to be selected. The “Unlimited Plan” allows users to use the service without worrying about data capacity (remaining capacity) while traveling abroad, even when sharing the service with multiple people such as friends and family or using multiple devices on an overseas business

trip.

With this expansion, the “Unlimited Plan” now covers 128 countries and regions. With the addition of 12 new countries and regions, mainly popular tourist destinations and Central America, users can now use the service in more areas without worrying about data capacity. In addition, we have also begun providing 4G “Unlimited Plan” in El Salvador, Nicaragua, and Panama, where only 3G were previously available.

Please take advantage of our “Unlimited Plan” which allows you to use your data without worrying about data capacity, if you travel to the relevant areas.

“GLOBAL WiFi®” will continue to improve its services to provide a comfortable Internet environment around the world.

### “GLOBAL WiFi®” “Unlimited Plan” added in 12 countries and regions
