Vision Inc. has partnered with Yamato Transport Co., Ltd. to begin offering an agent sales for “Same-day delivery for flights to and from Haneda Airport” service through “NINJA WiFi®,” a Wi-Fi router rental service for visitors to Japan. We deliver customers’ luggage from Haneda Airport on the same day.

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereinafter Vision), which operates GLOBAL WiFi Business, Information and Communications Service Business, and Glamping and Tourism Business under the themes of “Connecting People, Connecting the World,” has partnered with Yamato Transport Co., Ltd. (hereinafter Yamato Transport) in the area of luggage delivery service for visitors to Japan, and has begun acting as an agent sales for “Same-day delivery for flights to and from Haneda Airport (hereinafter the Service).” We deliver customers’ luggage from Haneda Airport to the 23 wards of Tokyo and Urayasu City on the same day (*1).

The Service is available as an optional service for “NINJA WiFi®,” Vision’s Wi-Fi rental service for visitors to Japan.

■ **Background to the launch of the Service as an agency sale**

The number of foreign visitors to Japan in January 2025 exceeded 3.7 million for the first time in a single month (*2), remaining at a record high following 2024. However, even now, you can often see international tourists on trains and buses in urban areas carrying large luggage from the airport to their hotels.

“NINJA WiFi®” has focused on this point and has begun acting as an agent sale of the Service provided by Yamato Transport. We believe that customers will be able to enjoy a more active and fulfilling trip to Japan by leaving large luggage such as suitcases at the Yamato Transport counter upon arrival at the airport.

■ **Service overview**

- How to apply : Apply as an optional service on “NINJA WiFi®” website (*3)
- Fee : 4,158 yen per luggage (tax included)
- Reception desk for luggage : Yamato Transport counters at Haneda Airport (Terminal 1 to Terminal 3)
